

## Take Homework Sheet- Under 3's

Our Golden wattles children have been getting creative with paints and Pva glue along with natural materials they have sourced from our yards e.g. Sticks, bark and leaves

### Steps

1. Collect natural resources from your garden
2. Blend 1/2 cup of flour with 1/2 cup of salt
3. Add 1/2 cup of water... and mix until smooth
4. Divide into three bowls
5. Add food colouring to each bowl until you reach desired colour

Natural materials have sensory benefits, they have different textures, sizes, colours and smells. They provide more tactile stimulation to children to help them improve their hand/finger awareness and hand and eye coordination.

## Take Homework Sheet- Over 3's

The Gumtrees children have been focusing on counting and identifying numbers!

Lets go on a counting walk and see how many things we can count.

Regular physical activity can help children improve fitness, build strong bones and muscles, and reduces symptoms of anxiety.

### Lets go on a counting walk

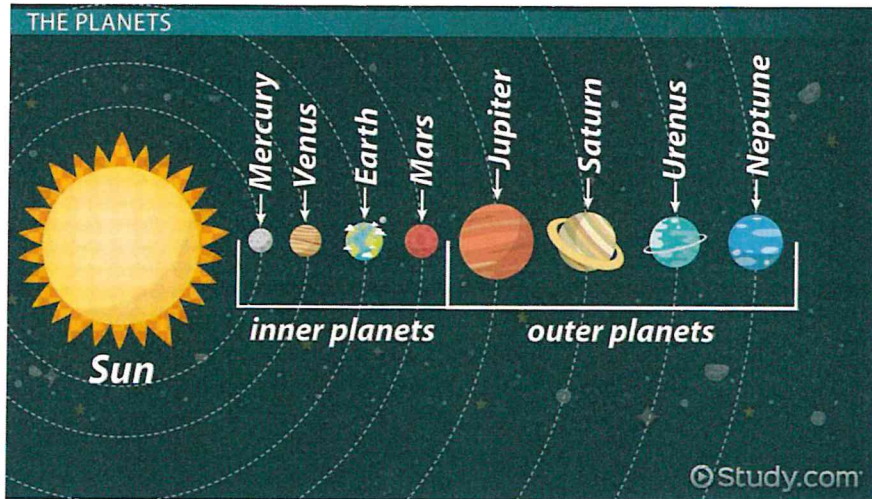

1. How many red cars did you see? \_\_\_\_\_
2. How many street signs did you see? \_\_\_\_\_
3. How many mailboxes can you count? \_\_\_\_\_
4. How many other people did you see on your walk? \_\_\_\_\_
5. How many roads did you cross? \_\_\_\_\_

Take Home work Sheet-Kindergarten

Our Willows children have been learning all about the solar system and what the planets are called...

Take a close look at these planets, can you see the pattern?

WHAT COMES NEXT?...
