

The children at KingKids have shown a collective interest and passion for space and aliens. We decided to make some aliens to hang from the ceiling and all around the room. Follow this step by step guide to help create your own googly-eyed Alien.

**Materials needed:**

- Paper towel or toilet roll
- Paintbrush
- Googly-eyes
- Sticky tape
- A colored paint of your choice
- Glue
- Scissors
- String

**Steps:**

1. Grab the finished toilet roll and using the paint brush, cover it in the colored paint of your choice.
2. Once the paint has dried, pick some different googly eyes.
3. Using the glue stick some of the eyes all around the painted toilet roll.
4. Then cut a piece of string at the length of your choice.
5. Using a piece of sticky tape, stick one side of the string inside the Alien

You have now finished a googly-eyed alien ready to be hung up.
