

DIY SPACESHIPS

As space has been something that has been incorporated in the programs throughout the rooms, there has been many creative pieces of art based around the aspects of space. If you follow the basic steps below, you will find yourself making your very own alien spaceship.

Materials you could use:

CD's, Paper plates, cups and bowls, pipe cleaners, googly-eyes, pomp oms, foil etc.

Steps : (using plastic bowls, plastic cup, a Pom Pom and googly eyes)

1. Paint 2 plastic bowls any way you like.
2. When they are dry stick the the 2 bowls together either using glue or sticky tape.
3. Grab the Pom Pom and attach a googly-eye to it using glue.
4. Place the pomp om inside a plastic cup.
5. Flip the plastic up upside down and stick it on top of one end of the bowls.

Below there is a few other designs you could make.
