SCIENCE WEEK

Build a space area with Chloe and Raissa. If you have some spare aluminium foil and boxes get creative and show us your space station!!!

Germ experiment with Chloe!

This is a great experiment to do at the moment to show our friends how germs work, how to stay healthy and safe during these times.

Science Magic Milk, A simple science experiment with things we can find around the house!

Stay tuned for videos that we create at Kindergarten for science week!

THE INVENTORS TEAM.

Amber, Gretta, Chloe and Raissa

Online resources

In the Inventors room, we have been singing songs all year that we have been practising to perform at graduation, and we really wanted to keep these a secret but we know this year is a very different situation. If you have any spare time to practise them that would be amazing.

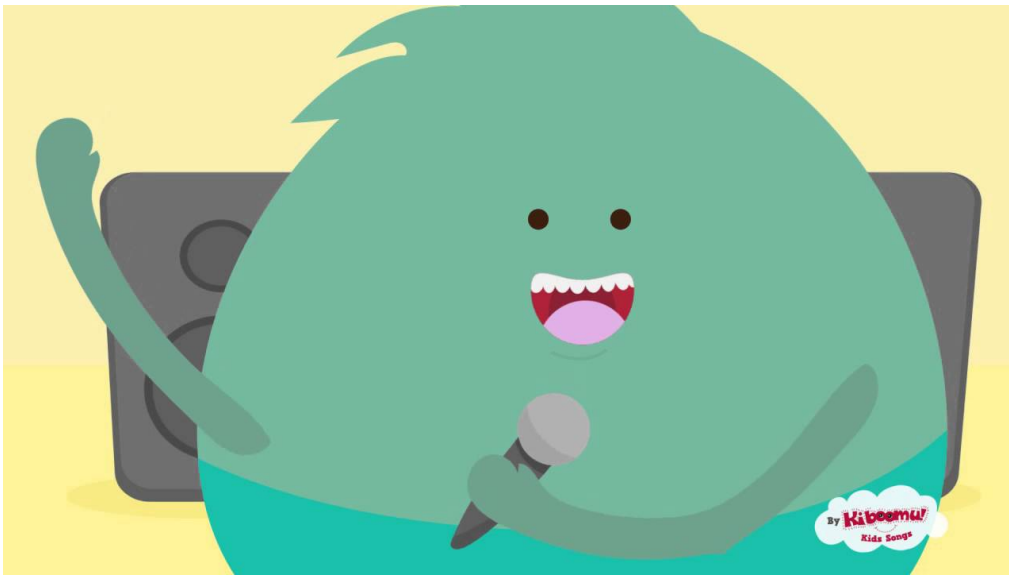

I can sing a rainbow with Auslan sign language.

Freeze dance.

Body safety, educating our children on fight, flight or freeze. We do this song as a way to educate our children on freeze as a bodily function and moving through the idea of fear and how we can react.

One small voice

A song making us feel proud of all we have achieved as we grow throughout kinder.
