

What do you  
think will  
sink?

**SINK**

**OR**

**FLOAT**

What do  
you think  
will float?

This week the Inventors went on an adventure to see what would float and sink in our learning environment!

Your special challenge this week is to see if your child can find things around the house and play a guessing game of will it sink or float and see if we can guess right!

Here are some examples of interesting items!

- Orange peeled and not peeled
- A tennis ball
- An older egg and a new egg
- Styrofoam, Cardboard, plastic or glass etc. (materials)

Please if you can send us your pictures and we can put them up on our friends at home wall in our kindergarten room to see what you discovered!

# The INVENTORS Team

AMBER, GRETTE, CHLOE AND RAISSA!
