

SPACE WEEK!!

Memory Game

How to play:

1. Print out two copies of the planet print out attached. Cut out two copies of the planets so they are separate pieces. *If you cannot print these out you can always draw them and get creative! *
2. Mix all the cards up.
3. Place the cards all face down on the table.
4. Players will take turns to flip over two cards of their choice. If the cards match the player gets to keep them. If the cards do not match the player must turn them back over in their same spot.
5. The next player will then take their turn following the same rules.
6. The game is over once all the pairs have been matched and found!
7. Tip: watch the players have their turns and try to remember where the cards are!

Earth

- the planet we live on
- 3rd planet from the sun
- only has 1 moon

Mercury

- closest to the sun
- gray colored
- no atmosphere

Sun

- a star
- the planets orbit around it
- provides the Earth with warmth

Jupiter

- 5th planet from the sun
- largest planet
- has 53 moons

Uranus

- light blue planet
- 7th planet from the sun
- coldest temperature of the planets

Neptune

- blue planet
- 8th planet from the sun
- has 6 faint rings

Saturn

- has large rings
- 2nd largest planet
- 6th planet from the sun

Mars

- red planet
- 4th planet from the sun
- has 2 moons

Venus

- 2nd planet from the sun
- hottest planet
- no moon

Astronaut

- person who travels in space

Space Shuttle

- reusable spacecraft that carries people into space

Rocket Ship

- non-reusable vehicle that goes into space
